Want to know more  
how azentro can help  
your business

**azentro**<sup>®</sup>  
DATA+MOBILITY+VOICE

# Mobile Maturity Assessment

- A Mobile Maturity Assessment evaluates your organisation's level of mobility usage, strategy, security and risk against best practice and industry standards.
- Blackbox Mobility's Mobile Maturity Assessment, customised to the areas that the client wants to focus on, including:
  - Mobility Strategy
  - Device lifecycle
  - Mobile Device Management
  - Apps and Management
  - Security
  - Support Models

# MDM Policy Review

- Workshop and consulting engagement to provide recommendations around organisation and industry specific profiles and policies.
- Development of MDM policies and profiles for new implementations specific to organisational requirements.
- Health check, review and update to existing MDM environments.

# Mobile Strategy Development

- Developing customised mobility strategy and roadmap, specific to organisations and industries. Investigating and including areas including:
  - Business strategy and objectives
  - Mobility vision and goals
  - Digital transformation
  - Security

# Single Corporate Policy Review and Development

- Developing clear, concise, easily understood and well-documented mobility policies, provides the foundation for successful, secure and manageable mobility solutions.
- Engagements to either review existing policies or creating new policies. (Excludes new BYO policies)
- Policy types may include :
  - Corporate Mobile Policy
  - Acceptable Use Policy
  - Mobile Security Policy
  - MDM User Acceptance Policy
