

Empowering
Australian Businesses
with Intelligent ICT Solutions

Together Technology

Driving business success through collaboration

With over 30 years of experience and a proven track record supporting more than 1,500 business clients and 1,000 government organisations across Australia, Hexicor is a future-focused national ICT provider headquartered in Brisbane, Queensland. We're committed to reshaping the Australian technology landscape by delivering innovative, efficient, and secure solutions that empower our clients for long-term success.

With offices in Brisbane, Adelaide, and Darwin and a strong operational reach into regional and remote areas, we offer a unique blend of metropolitan expertise and on-the-ground support where it's often needed most. This strategic presence allows us to respond quickly, customise solutions locally, and build meaningful relationships with clients across both city centres and underserved communities.

At Hexicor, our core values – Integrity, Collaboration, Innovation & Creativity, Service Excellence, and Sustainability – drive everything we do. These principles aren't just part of our brand, they're embedded in our culture, guiding how we work with clients, partners, and communities to deliver meaningful and lasting value.

UC & Connectivity

We bring your teams and customers closer together with seamless, integrated communication systems. Our unified communications solutions include voice, video, messaging, collaboration tools, and cloud-based contact centres. We help businesses reduce costs, increase mobility, and enhance productivity, whether in the office, on the road, or working remotely.

Mobility Solutions

In a world where work happens anywhere, mobility is essential. Hexicor offers enterprise-grade mobile device management, remote working capabilities, and secure mobile communications solutions that keep your workforce connected and your data protected. We tailor mobility strategies to align with your business goals, ensuring agility and compliance at every level.

IT Services

Our IT management services aim to take the stress out of tech. We actively monitor, support, and enhance your IT systems, allowing you to concentrate on your core strengths. Whether it's cloud migrations, infrastructure management, help-desk assistance, or hardware procurement, we are your trusted IT partner throughout the entire process.

Our IT Services include

Managed IT Support

We take the complexity out of managing your tech environment. Our team actively monitors, supports, and optimises your systems so you can focus on your business. Whether it's help-desk support, hardware procurement, or ongoing maintenance, we're with you every step of the way.

Cloud & Infrastructure

Hexicor supports your digital transformation with services like cloud migrations, infrastructure planning, and system upgrades. We help you build a scalable, high-performing IT environment tailored to your goals.

Data & Networking

Your network is the backbone of your business—and we make sure it's built for performance, scalability, and security. Hexicor designs, installs, and manages advanced networking solutions including LAN, WAN, Wi-Fi, SD-WAN, and data cabling. Whether you're connecting a single office or multiple sites across the country, we keep your infrastructure strong and reliable.

Cyber Security

Security is at the core of everything we do. Hexicor provides robust cyber security services to safeguard your business against modern threats. Our services include vulnerability assessments, penetration testing, endpoint protection, security audits, managed firewalls, and compliance consulting. With Hexicor, you get peace of mind knowing your digital assets are protected 24/7.

Telematics & IoT

We connect your business to smarter insights with powerful IoT and telematics solutions. From asset tracking and fleet management to environmental monitoring and predictive maintenance, we help you harness real-time data to drive better decisions.

Our scalable platforms give you full visibility and control boosting efficiency thereby enhancing safety, and unlocking new levels of performance.

MANAGED SERVICES / SUPPORT

What our customers are saying

Hexicor's project team continues to deliver outstanding solutions, with customers consistently recognising our expertise, professionalism, and commitment to achieving strong outcomes.

St Phillips College

Hexicor's team delivered an exceptional Azure server migration, showing clear communication, technical skill, and calm under pressure, especially when a major database failure occurred just before the migration began. Special thanks to the team for their expertise, steady support, and strong coordination throughout a smooth and well-executed project.

Workcover Queensland

Hexicor was highly responsive, resolving the few testing issues quickly and keeping communication clear and consistent throughout. Their collaborative approach and flexibility with last-minute user matrix changes made the process seamless, and their professionalism truly enhanced the overall experience.

Ampol

Now over halfway through the Ampol TIPT Retail Project, I want to commend the Hexicor team for their outstanding work. Their ability to manage 10-14 sites per day, adapt to changes, and keep everything on track has been exceptional. The feedback from both the customer and our internal teams has been overwhelmingly positive, and their professionalism, organisation, and responsiveness have made a real impact. I'd gladly recommend Hexicor for future projects.

TEABBA

During our Mitel and MS Teams Integration the team at Hexicor was always on hand when required for assistance and has continued that support throughout the project and its completion.

RASAC

We'd like to thank your team for the exceptional work on our recent phone migration project. The transition was seamless, and the professionalism and expertise shown throughout were outstanding. Special thanks to the project, and the technical team for their dedication and delivery of a high-quality outcome. We look forward to working together on future projects.

Pickwick Group

I was thoroughly impressed with the quick response from the Hexicor team, who addressed everything I requested with efficiency. The service quality from the team at Hexicor continues to exceed my expectations, and I've confidently recommended their services to many of my contacts.

What sets Hexicor apart?

In a crowded ICT landscape, Hexicor stands out not only for what we do – but how we do it.

National Reach, Local Presence

With expert teams across QLD, SA, and NT, we provide rapid, localised support backed by the strength of a national operation.

Tailored Solutions

We don't believe in one-size-fits-all. Every solution we offer is designed around your business goals, your people, and your tech environment.

Deep Industry Expertise

Our team consists of seasoned professionals with decades of combined experience across sectors including government, education, healthcare, retail, and more.

Innovation That Drives Results

We're always pushing the envelope, integrating the latest technologies to help our clients stay ahead of the curve and future-proof their operations.

Whole-of-Business Focus

We look at the big picture. From frontline communication tools to back-end infrastructure, we align every solution with your overall business strategy.

Let's connect your business to **what's next**

Hexicor is more than just a technology provider – we're your partner in progress. Whether you're looking to improve collaboration, secure your systems, upgrade your infrastructure, or simply get more from your IT investment, we're here to make it happen.
